

# TEMMA

Corporate Profile

## Commitment to quality and hygiene

Being in direct contact with foodstuffs makes quality and hygiene an inherent part of food containers. At TEMMA, we believe our role is more involved than that of a food container manufacturer. We take pride in making our product as though it were the food itself. As a customer, you can be assured of the high reliability of our products.

### ■ ISO9001: 2000 Certification

March 2004: TEMMA received organization-wide ISO9001:2000 certification, including manufacturing and sales divisions. In addition to the ISO quality management system, TEMMA operates its own high-level quality management system as part of our commitment to providing customers with reliable products.

## About TEMMA

TEMMA has been developing innovative new products for the food industry since 1949. Our name is recognized as the top brand throughout the confectionery and bread making industry. Our product range, which includes more than 1000 items based on proprietary concepts and mold technology, has earned us a reputation for high reliability. We are dedicated to continue providing customers with creative quality products and services.

TEMMA is in the business of making smiles.

**PRODUCT**

**Muffins**

These cups couldn't be easier to use. Simply pour cake batter and bake. In addition to these easy-to-use paper cups, we also make cups from PET for thick or watery batters.

**Fancy liners & plates**

Fancy liners and plates were specially designed to make cakes in shop windows look as delicious as they taste. Confectionary chefs will find liners and plates, some made from film, in various shapes and designs for their every need.

**Japanese sweet**

Our selection of Japanese style containers are designed to strike that fine balance between bold and unobtrusive. These beautiful designs, a fusion of East and West, will make your sweets even more appetizing.

**Butter & Foam cakes**

These baking trays are made from materials that hold up to buttery batters. Trays are also available with grease-resistant coating to protect the design from grease stains.

**Paper cups & PET cups**

We have many materials and molds to meet various needs. These paper cups can be used for a variety of baked goods such as cupcakes, and chocolate confections, and PET cups are all bakeable and do not require baking pans.

**Take-out containers**

We offer individual packets suitable for deoxidant packs to preserve the freshness of your serving-size cakes or foods. TEMMA can provide all the tools and materials you need from making the cake to decorating it.
