## Sales of cup and lid sets

In the past we have had separate product codes for sales of cup and lid sets, but we have decided to abandon this system. To order cup and lid sets, you must now place your order specifying the product number, product name, and number of cases separately for cups and lids. Also be aware when ordering that cases of cups and lids may not always contain the same number of items. There may also be a difference in price if you order the lids separately rather than as a combined order with cups. For more information, please contact our sales representative.

## Curled cups

We've redesigned our popular curled cups. These cups have been made from a single sheet of PET laminated paper, so there is no chance of leakage. The top of the cup is curled over so the PET lid also fits perfectly. These cups are perfect for any kind of food, from salads to meal portions, not to mention sweets.
