### Main materials used

**Glassine paper** This paper is thin and translucent, yet dense.  
**Separate glassine paper** This is glassine paper processed with silicon. Apart from white glassine paper, we also have brown glassine paper and glassine paper in other colors.

**Parchment paper** This paper goes through a sulfating process and is both water and grease proof.  
**Aluminum foil** Thickness is typically 12 microns or 30 microns.  
**PET film** May also be used for baking in an oven.  
**OPP film** May also be used for warming up in microwave ovens.

Please inquire about other materials or different thicknesses for these materials. We can also print any design you like so please feel free to ask us.
