

PET cup

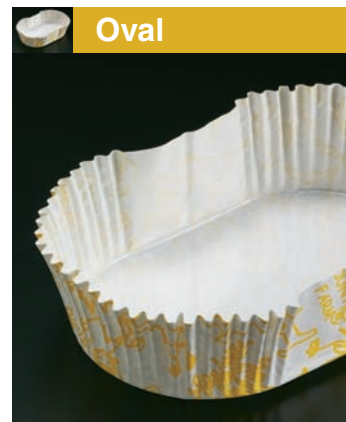

These cups can be filled with dough and baked as they are without a separate baking mold, so they are economical and efficient. They are ideal for baking breads, buns, and Danishes, but may also be used as a container for any kind of food.

PBT BAKE CUP

PET cups have evolved

Instead of PET film, these items have been laminated with PBT (polybutylene terephthalate). They keep shape well, but also peel off easily. Please give them a try.

- 1 They are easy to peel off.
- 2 They have a matt finish.
- 3 They have excellent resistance to heat and cold.
- 4 The materials are strong and keep their shape.
- 5 They can be put through metal detectors for product testing.
- 6 As they are environmentally sound and hygienic, you can use these with confidence.
